

March 13 2007

Peregrine Semiconductor Australia Pty Ltd, received an award at the fifth **Secrets of Australian ICT Innovation Competition** ceremony held on March 13 in Melbourne.

Peregrine Semiconductor Australia (PSA) was recognised in the 'commerce' category, for innovative products or services based on application of technology to enhance the ability of businesses to trade with other businesses or the general community.

PSA has developed a 0.25 micron silicon-on-sapphire RF-CMOS semiconductor and is the sole manufacturer of the technology worldwide. PSA's product is now part of the global supply chain in mobile phones for companies such as NEC, Motorola, Philips, Nokia, LG, Sony Ericsson and Blackberry.
